

Product Specification

Product Name	Baked Salt in Bamboo Charcoal			Category	Sea salt	Expiration Date	Not applicable
Product Size	10-15×2-3(cm)	Availability Period	All year	Lead Time	1 to 2 months	Country of Origin	Japan (Miyazaki)
Net Weight	100~120g	Quantity per Case	36 pieces	Gross WT of a Case	11.2kg	Case Size	L49×W28×H41(cm)
Order Unit MOQ	1 case	Storage	At normal temperature	Allergens	None of the 28 items on the allergy list		
Packaging Material	Polyethylene bag ※ Bisphenol A (BPA) is not contained.					JAN Code	4537143532038
Product Development Background and Strong Points	<p>Baked salt with an entertainment value as well as taste.</p> <p>Our bamboo salt is made by filling dried bamboo tubes with salt and baking them in a kiln at over 900°C. As the bamboo turns into bamboo charcoal, minerals from the bamboo seep into the salt, producing a sweet and tasty condiment that adds umami to your favorite recipes.</p> <p><Key benefits></p> <ul style="list-style-type: none"> ● Rich mineral content of the bamboo charcoal is dissolved into the salt, resulting in based salt with a delicious flavor. ● Using natural sea salt from Miyazaki, which matches perfectly with our locally-grown organic bamboo. ● The salt is baked at a temperature of more than 900°C in an earthen kiln for one month without using gas or fuel.
